

# IN- RGY

## IN-AUTOMATION

We advise and guide our clients through organisational transformation and deployment of best technologies serving Human Resources.

### ● Service Reinvented

**Upgrade your service, not just your technology. Service delivery excellence should be independent of your technology landscape roadmap and agile enough to evolve with it.**

**IN-AUTOMATION** services provide you with the **expertise and solutions** to drive Intelligent Automation within your service delivery **from concept to execution**. **IN-RGY's** unique approach **fast tracks results** and organizational adoption.

### ● Cutting through the noise allows us to focus on business results.

**IN-RGY** has a **no-nonsense approach** to Intelligent Automation. We cut through the red tape of long winded consulting engagements and focus on results that matter delivered with speed.

**Our turn-key offering allows organizations to go from concept to operate in less than three months.**

We bring in experts that span across domain experience in **Intelligent Automation, Enterprise Technology and Service Delivery**. Our approach provides all the elements needed for your success without the need of large engagement overhead.

### INTELLIGENT AUTOMATION SERVICES

- Educate your organization about Intelligent Automation
- Build an automation roadmap
- Fast track the deployment of automation with turn-key solutions
- Rethink service delivery through the lens of automation
- Improve service and drive the bottom line

# IN- RGY

## A simple concept, a vast array of benefits

- Reduce operational cost
- Improve speed of execution
- Increase quality of service
- Shorten end to end process execution
- Boost employee morale
- Increase client satisfaction
- Gain operational agility
- Accelerate service innovation
- Add optimized new lines of services

### Organizational Education & Adoption

For many organizations, getting started with Intelligent Automation ends up being the hardest part of the journey. Our education and consulting services help you evangelize the concepts and forge the internal partnerships that will drive success and build a journey map that works for your organization.

### Business Assessments

We help you assess where to start with automation and how you will benefit. We work surgically and partner with you to build your automation muscles internally.

### Implementation Services

Our implementation services implement Intelligent Automation through the lens of service delivery ensuring an optimal result.

### Operational Services

We stand by our work and we are happy to prove it. We can manage your automated processes for you with our operational services : provide ongoing support, report on operational and business insights and deliver continuous improvements.

## IN-AUTOMATION Intelligent Automation Services

### Turn-Key Automation

We lower the barrier of entry and simplify ongoing delivery through a fully managed offering. **IN-RGY** can deliver the infrastructure, software, implementation and operational services all together. Use it to get started fast or as a long-term strategy for deployment.

### IT & Business Partnership

An oftentimes overlooked aspect of Intelligent Automation is how organizations have to evolve to drive long term success. A Center of Excellence can be a step in the right direction but may fall short of what

will drive the right results. **IN-RGY** can provide guidance and expertise to help you maximize the value of your investments. From designing service orchestration to rethinking the partnership between IT and Business.
